

Minky Homecare is a trading name of Vale Mill (Rochdale) Ltd. The company has a long history. A family owned and run business, it can trace its roots back to the mid nineteenth century in Rochdale, Lancashire, UK.

**Minky** is one of the finest products to ever come out of Rochdale in the United Kingdom. Manufactured from a natural fibre giving hands and wrists better and longer protection.

**In testing:** A s/steel roasting dish was taken from an oven operating at 210°C and was able to be held comfortably for over a minute.

All Minky products are hardwearing, fire retardant and can also suit larger hands.

*For best results all Minky mitts, cloths & gloves should be machine washed & air dried on a line.*
